### About the ACU-2000 IP:

Raytheon's JPS Communications' ACU-2000 IP enables communications interoperability among radios, telephones, cellular, satellite and SIP phones. Remote communications devices can be interfaced via an IP network to enable wide area interoperability. It features a GUI interface for simple setup and control, remote radio channel changing and a distributed network design for operation continuity.

For more information on the ACU-2000 IP, please contact JPS Sales by emailing [sales@jps.com](mailto:sales@jps.com); calling (919) 790-1011 or visiting our website at [www.raytheon.com/jps](http://www.raytheon.com/jps).
